COMMENTS OF CHARLES CRAWFORD

In the Joint Petitioners "Reply to Oppositions to Partial Petition for Reconsideration," they say at page 15, "The opponents do not argue that there is any present defect in the proposal offered by the Joint Petitioners nor do they argue that a new petition could not be filed." They footnote this statement with the following, "Crawford refers to one or more deficiencies which existed in October 2000 when the Counterproposal was filed. But those alleged issues were long since resolved and present no impediment to consideration of the proposal now."

The above statements by the Joint Petitioners are factually incorrect. In my "Opposition to Petition for Partial Reconsideration and Request for Expedited Action" I argued that the substitution of channel 256A at Ingram was at the time of filing and is now short spaced to Station KAYG channel 256A at Camp Wood, Texas. (See, Attachment A)

The "KVCQ Alternative" is short-spaced to KAYG. The "KVCQ Alternative" proposed substitution of channel 256A for channel 243A at Ingram, Texas is short spaced by -29.68 kilometers to station KAYG channel 256A at Camp Wood, Texas. At page 15 of the Quanah counterproposal Engineering Statement, the Joint Parties said "channel 256A is available for Allotment at Ingram, since channel 256A was deleted at Camp Wood, Texas in MM Docket No. 99-214." The Joint Parties did not disclose to the Commission that such deletion has never taken place.

In the Report and Order for MM Docket No. 99-214, the Commission said "the construction permit for La Radio Cristiana Network, Inc. for station KAYG, Camp Wood, Texas, IS MODIFIED to specify operation on channel 251C3 in lieu of channel 256A, subject to the following conditions:"

"Within 90 days of the effective date of this order, [August 11, 2000] the permittee shall submit to the Commission a minor change application for a construction permit (Form 301), specifying the new facility."

and

"As a result of this proceeding, La Radio Cristina Network, Inc., permittee of station KAYG, is required to submit a rule making fee in addition to the fee required for the application to effectuate the upgrade at Camp Wood, Texas."

We requested that official notice be taken of the Commission's records that neither of those conditions has ever been met and that station KAYG is still broadcasting on channel 256A.

The Report and Order for MM Docket No. 99-214 was released on May 12, 2000. The order specified that La Radio Cristina Network, Inc. file a construction permit (Form 301), specifying the new facility within 90 days of the effective date of the order or by August 11, 2000. When the Joint Parties filed their counterproposal on October 10, 2000, they knew or should have known that Station KAYG had not filed their Form 301 specifying the new facility within 90 days of the Report and Order. In fact, on September 19, 2000, La Radio Cristiana Network, Inc. filed a Form 301, not for channel 251C3 but for Channel 256A. (See, Attachment B) This Form 301 was accepted for filing on October 5, 2000, 5 days before the Joint Parties filed their counterproposal on October 10, La Radio Cristiana Network, Inc. also filed KAYG's Form

302 for Channel 256A on September 19, 2000.

Station KAYG at Camp Wood, Texas was and is broadcasting on Channel 256A. Clearly, KAYG is not only broadcasting on Channel 256A but by virtue of their not meeting any of the conditions of the Report and Order for over three years, they most probably have abandoned any reasonable right to Channel 251C3.

The factual information provided in these "Comments of Charles Crawford" is correct and true to the best of my knowledge.

Respectfully submitted,

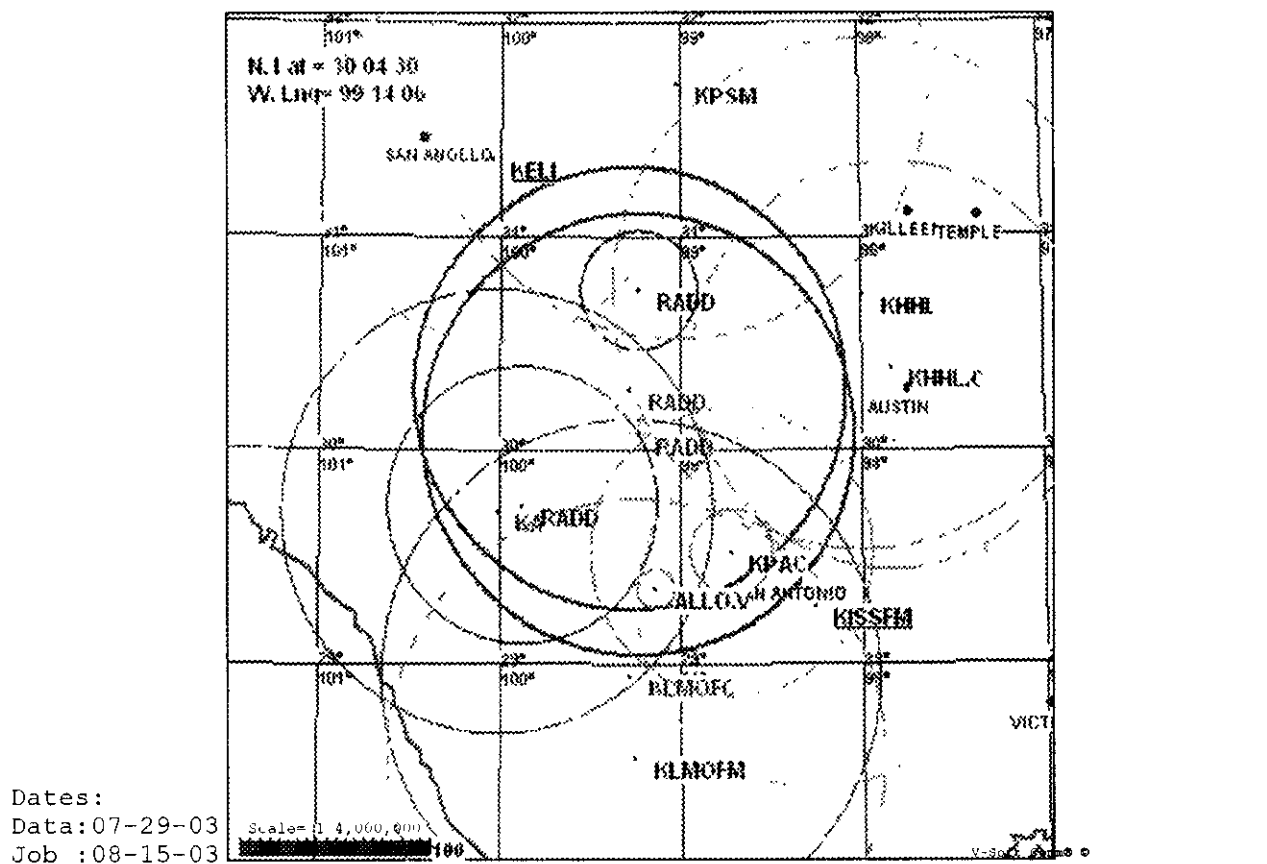

Charles Crawford
